Continuation of Attachment(s) 9. Other: Drawings submitted 06/23/04 has been approved..

The substitute specification filed 06/23/04 has been entered.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art, Cremona and Soderberg teach most of the elements of the disclosed invention including a table, a knife, first and second cranks and means for moving the table with the supported work piece and knife relatively toward each other; however, the prior art fail to teach or suggest a "controlling means for controlling the movements of the knife by at least one of speed, phase and stroke length of the first of the cranks independently of the second of the cranks". It should be noted that crank 14 of Soderberg is given an approximate "lead" or "offset" of 90 degrees with respect to crank 15 (col. 2, lines 18-24) so when the device of Soderberg is operated, crank 14 is moved downwardly ahead of crank 15 causing knife 19 to begin cutting at the edge of plate A.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
